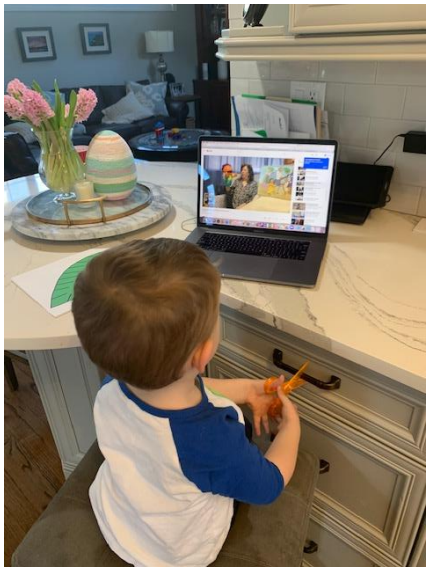
FROG ROOM NEWS

The month of April our learning took place online.



In our Jesus stories, the children heard about Jesus riding on a donkey into Jerusalem. The grownups and children were happy to see Jesus. They waved palm branches and sang praises to honor Jesus. The children had the opportunity to use their fine motor skills and cut out palm branches. They were encouraged to have a parade for Jesus. The children also heard the story of Jesus' death and resurrection.

We have begun our project! We are learning about Farms and the animals that live on the farm! This week the children went on FlipGrid and answered the question-"What farm animal do you want to learn about?" The children received a packet of activities that we will use in this unit. The first activity the children had the opportunity to do, was to plant seeds. The children put wet cotton balls into a plastic bag with bean seeds. They then could hang the bag in their window, in order to watch how the seeds grow!

I am hoping that all the children in the Frog Room are enjoying the outside on these sunny days!
