

Judson International School

Art 1 and 2

Course Description:

Art 1: Our introductory art course focuses on The Elements of Art such as line, shape, and value, while building the foundations of art techniques using a variety of dry mediums that include graphite, charcoal, and soft pastel.

Art 2: Art 2 builds on Art 1 by focusing on the Principles of Design which include balance, harmony, and color to name a few. This area of study allows students to delve deeper into various styles of art and to develop their own identity as an artist.

The objectives of our art classes are:

- Enhancing students' God-given creativity
- Introducing a variety of art media
- Studying and understanding the elements of color and design
- Improving individual drawing and painting skills
- Strengthening intelligent analysis of art based on foundational elements
- Fostering an appreciation of art within history

Field Trip: Norton Simon Museum of Art

Evaluation: Class projects build on one another. Students keep a personal folder of their works. Student projects are evaluated on effort shown, used of time, correct use of materials, evidence of listening and evidence of understanding the assignment.
