Amy Shields Takes the Helm at St. Dominic Village as New CEO

(Houston, TX – January 15, 2014) The Board of Directors of St. Dominic Village, one of the leading providers of senior care in the Greater Houston area and a member of the Texas Medical Center is pleased to announce the arrival of Amy Shields as the new Chief Executive Officer.

Mrs. Shields began her role on January 2nd. A native Houstonian, Amy has spent her entire career in long-term care and looks forward to growing capacity and forging partnerships, especially with local hospitals. “I am eager to begin showcasing the impact that St. Dominic Village has made in this arena,” she stated. “We are committed to translating our success in long-term care to the short-term needs of patients in the greater Houston area,” she added.

Excited about leading St. Dominic Village, Amy finds inspiration from the memories of her grandparents. “I love this population. I am very happy to have the opportunity to make St. Dominic Village a true ‘home’ for our residents. Additionally, because of our close proximity to the Texas Medical Center, I want our campus to be the ‘go-to’ resource for hospitals and physicians.” Mrs. Shields, who holds her LNHA license, is a graduate of Texas State University in San Marcos with a degree in Social Work, and is active in The Junior League of Houston.
