

Butterfly Room December Newsletter

Hello Parents!

We had a great December in the Butterfly Room! We spent this month learning about the Christmas Story. In Jesus Time we read the Christmas Story from our Bible and acted it out with our Nativity and with our dramatic play costumes. We also were hard at work practicing for our Christmas Program! The kids did an amazing job performing their songs and were so proud to show off what they had learned. We learned the letters H, R and M and did so many fun crafts, games, and science experiments. We had a week of gingerbread hunts as we tracked down 5 sneaky gingerbread men hiding in our room everyday. We learned about different types of Christmas trees at our science center. We did a present shake and guess game and a magnetic tree experiment and so much more. Finally, we made Christmas string lights with our fingerprints and worked hard on special Christmas gifts for our parents!

Thank you parents for your help this month! It was so fun and jolly! Ms. Erin and I wish you and your families a very Merry Christmas and a Happy New Year.
