

## February Newsletter

Hello Parents,

This month we learned the letters U, L, F and B. As we learned these letters we had a theme to go with them. With letter U We learned about Under the Sea, with letter L we learned about Lemons and Limes and made lemonade and stamping art. With letter F we explored Feathers and birds and made feather prints. Finally with letter B we learned about Bugs and Building! At the end of the month we started the beginning of our project learning. The kids brainstormed their interests and ideas of what they are interested in learning about and then we voted on what our project will be. The kids decided on books for our project! We are very excited for our project to begin next month.

This month we reached our 100th day of school! This was an exciting day where we celebrated being 100 days smarter and all we had learned so far. We also celebrated Valentine's Day! We had our Valentine's Day party and Music Together. The kids loved having special guests join us in the classroom. We also made Valentine's and learned about God's unconditional love for each of us and how to share that love with others. Thank you for a great month!
