

Look at What We are Learning!

The Ladybug Room
February Newsletter

Mrs. Lithio and Mrs. Umbrasas

February held so many things! We practiced the letters in our names through name puzzles, tracing, and writing. We're excited to use our mailboxes and write notes to classmates. We had such fun at our Valentine's Day party, too. Thank you to our helpers!

Our favorite song this month was Skidamarink. Our Bible words were *We love, because God first loved us, and we love sharing his love with everyone!*

We enjoyed a visit about the dentist and taking care of our teeth. We had fun inside ice skating to music, and did lots of things with numbers. We built a graph of our names, shaped numbers with playdough and counted many things!

One rainy day, we put a dishpan outside to see how much rain we could collect. It rained a LOT and we had almost an inch of water! We wondered about where all the water would go. We'll be talking more about God's creation in our Nature Project. Let's learn!
