

# Look At What We are Learning!

The Ladybug Room  
January Newsletter  
Mrs. Lithio and Mrs. Umbrasas

There's snow outside and inside in January! Art held many opportunities for learning. Science mixed with art as we discussed how colors and snow changed while we painted it. Reading inspired art as we drew and painted a city. Math combined with art as we practiced drawing squares, rectangles and triangles. Circles made sunsets. Social emotional skills grew as we focused, concentrated, shared and laughed together.

On Wednesdays, we love singing with Ms. Emily at Music Together. Rhythms and rhymes are fun!

We are growing in so many ways!

January also brought learning the shapes of Mat Man. We practiced making, then drawing our own Mat Man. We used the shapes to make the first letter in our own names.

This month, we learned how quilts are made for families who need them. We thanked Ms. Jan for teaching us, and sharing the love of Jesus.
