

Look at What We are Learning!

The Ladybug Room March Newsletter

Mrs. Lithio and Mrs. Umbrasas

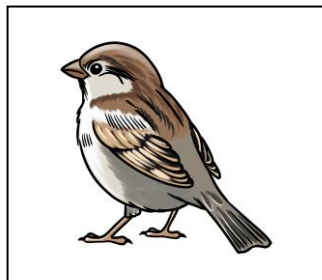

We sang songs for Jesus and our families in church, then we enjoyed showing our birds and class mural at the Art Show afterwards.

We loved having Grandfriends share a morning with us. We traced handprints, read, sang, and went to Music together. It was a very special day!

The children were scientists as they examined and measured real feathers. They read books about birds, and watched our bird feeder and a live eagle cam each day.

We learned about planting seeds and can't wait to see our rainbow kale grow! Happy Spring!
