

September 2022

News from the Lamb Room

It's been such an adjustment getting used to the classroom. We have been easing in slowly to a routine on how the classroom is scheduled. The children have been moving more around the classroom, exploring what they can do and being around other classmates. The children showed great interest in finding their family pictures.

This month we focused on colors and shapes. We did color matching and shape matching. We heard books read to us that were related to colors and shapes.

The children had a chance to finger paint, paint with objects, and paint at the easel. Some of the paintings are hung up in our classroom. Take a moment and check out the great artwork in the classroom.

The children really liked being outside to run around, riding the cars, do chalk drawing, water play, etc.

Starting, Music this month was a lot of fun with Mrs. Emily.

September was a busy start to the school year in the Lamb Room and we have been blessed with such great weather. Looking forward to the many months to come.

Ms. Merkle
