

Look at What We are Learning!!!

The Fish Room September Newsletter Mrs. Kowalski & Mrs. Nolan

Purple

We watched the movie *Harold and the Purple Crayon* by Crockett Johnson and then we were able to make our own purple pictures by experimenting with frozen purple paint popsicles.

Jesus Time

This month we read the story *Jesus Blessing the Children*. We talked about our friend Jesus and how much He loves EVERYBODY! We have learned that He is never too busy for His children (Matthew 19:13-14).

Red

We created red ink blot pictures with dictations of what each blot looked like.

Blue

We used different shades of blue paint and salt to create blue saltwater oceans.

Green

We read the story and learned the song *Five Green and Speckled Frogs*, and then made our very own green speckled frog tube story to use while singing the song.

Yellow

We looked high and low all around our classroom when we went on a yellow hunt.

Circle Time

Here are just a few things we are learning during our morning circle time:

- recognizing our names through the use of our attendance pictures, the question of the day, and our helper chart
- one-to-one correspondence counting by counting who's here and who's missing
- listening and following one, two, three step directions
- our classroom routines and rules

Orange

We learned about the color orange by discovering how to make orange juice. We graphed whether or not we liked it by answering "yes" or "no" and found almost EVERYONE loved it!!

Color Mixing

The children were very excited to mix colors together to create a new color. The children were able to experience mixing colors first hand by finger painting at the easel. We learned blue + yellow = green, red + blue = purple and yellow + red = orange.
