

Bocce Unified Partners

Who? Florida State Council Knights of Columbus.

What? Special Olympics Florida has 1,075 athletes competing in bocce. Knights would be paired with athletes as Unified Partners for sports training and competition at Special Olympics Florida events statewide.

When? Bocce season will tentatively start in February and run through May. Teams practice once or twice a week and Knights who sign up should be prepared to commit for that full time period. Teams participate in county competitions, then may advance to area and a select few will advance to State Summer Games in May.

Why? Build new friendships, participate in exciting competition, while helping Special Olympics Florida athletes achieve their dreams. Knights of Columbus is a longtime supporter of Special Olympics Florida and we are excited to partner on this initiative, broadening our engagement with Special Olympics Florida across the state.
