

STAGING DIMENSIONS & REQUIREMENTS

- 24 deep x 32 wide
- Height must be no less than 3ft from floor and not to exceed 4ft
- Provide 8x8 kickout on front of main decking at same height as stage
- Provide stair access at both back ends of stage
- Stage must be a non-slick surface. Yet be smooth at all connecting points.
- Stage must be free from all obstruction such as uneven lips.
- Stage Decking must be professional grade. (School graduation program stages are not acceptable. They typically do not provide a safe surface for the load bearing weight and movement required by bands and the production equipment that will be placed on the stage.)
- Stage must be sturdy, heavy and is not to sway in anyway whatsoever.
- Stage must have floor protectors under each leg (to protect gym floor)
- Front of stage must be skirted with black skirt
- The rear of stage must be 20 ft from the back wall to allow Projector Lens through for event show screens.
