Future Veterinarians Wanted: Report to Oxbow's Veterinarian Camp!

Oxbow Animal Health Veterinarian Camps encourage children's interest in animals, and introduces them to the world of veterinary science. Hands-on activities include animal anatomy and behavior, nutrition, parasites, general examinations, x-ray analysis, and participation in a mock surgery. Campers will have the opportunity to interact with a real veterinarian and intermediate campers will be exposed to professionals in various animal-related careers by participating in a field trip in the area. Junior Vet Camp is designed for children completing 2nd through 5th grades and takes place over four days. Intermediate Vet Camp is designed for children completing 6th through 8th grades and takes place over five days. Both camps run from 8:00 a.m. to 4:00 p.m. daily.
