

Accreditation gave us the standards that then helped us re-align our services, marketing, and practices. It is the single most important thing that you will do for your organization.

The first two years we increased our target market 104%! Becoming accredited was the best thing our center has ever embraced.

The benefits that we have experienced are almost too numerous to list BUT the top three benefits are

- 1) Increase in abortion minded and overall total patients;
- 2) Ability to stop Planned Parenthood legislation;
- 3) Confidence for the staff, board, and volunteers that our standard of practice is defensible.

Debbie Tracy
Executive Director, Pregnancy Alternatives Center
Lebanon, Oregon

Pregnancy Medical Centers must meet over 500 Medical Industry Standards. Do you?

Your Solutions Now, LLC offers
Accreditation Preparation
and Comprehensive Services
to Improve Your
Pregnancy Medical Center

Your Reputation. Your Progression. Your Solutions Now.

Achieve credentials for the highest standard of care.

Reach a top 10% national ranking for medical clinics.

Impact more abortion-minded patients.

We'll train you, sharpen you, and vouch for you.

Pregnancy Medical Centers must meet over 500 Medical Industry standards.

Do you?

You're dedicated to providing the highest quality of care and service. We help you get the standards in place to be confident you are doing it right.

Accreditation is a voluntary process through which your organization is able to measure the quality of your services and care performance against nationally recognized standards.

Throughout the process your organization's strengths and opportunities for growth are revealed, ultimately creating the best possible care and service environment for your patients.

Your Solutions Now, LLC team.

Your Solutions Now works closely with Pregnancy Medical Centers to elevate their standards in care and service to the highest level in the nation. We believe that a reputation as an honest and reliable business partner is the recipe for success.

Training and Webinars.

Now you can advance your knowledge—from anywhere.

Most organizations utilize training in one form or another. Because we understand the demands of a busy schedule, we offer training that is just a click away for those who are unable to travel.

We also offer affordable webinars for clients that don't have time or budget to travel and attend educational presentations. These include:

HIPAA

Keeping Compliant with HIPAA/State Privacy and Security Rules and Regulations to protect your patients' Private Health Information (PHI).

OSHA

Bloodborne Pathogens, Ergonomics, Work Place Violence, Safer Sharps.

Quality Improvement Training

Learn the process to identify areas of improvement, set a performance improvement goal and measure your results.

Emergency Preparedness

Do your personnel know how to minimize the risk to patients and visitors in the event of an emergency?

Exposure/Post Exposure Control

Do you know what to do in case someone experiences a needle stick or exposure?

Risk Management

Learn how to identify and mitigate risks.

Human Resource Management

Learn how to build a cohesive team.
