## **Tips To Improve Your Studying**

**By Yoab Yosef**

---

Are you trying to get that A on your next test or improve your overall grade? The key is studying. Studying is vital to the improvement of classes and doing better in school. But there are right and wrong ways of doing so; here are ten tips to help you.

### **1. Get your blood pumping**

Just walking around and repeating information can help with memorization. This could range from walking around to jumping jacks. This will help pump blood to your brain, and in turn, you will remember things better.

*Last time we saw Razor achieve a new form and completely annihilate a Heartless, but he is unable to control his new form and is currently in a state of unending rage.*

Razor let out a huge roar and began to charge at Roxas, who was currently in the form of a wolf. When Roxas saw Razor running towards him, he braced himself to counterattack. When Razor and Roxas clashed, they both hit each other with enough force to kill. As the two grappled with each other they would scratch, claw, and bite. When the two separated, blood was dripping from their cuts and

**2. Use a clear font if you are reading**

Make sure that you can actually read what you are trying to study. Use a font that is easy to understand and big enough to read. This will help make your studying easier.

**3. Repeat what you read out loud**

Repeating things out loud stimulates different areas of your brain and helps you remember better than just reading alone. So try reading what you have to study aloud, and understand what you read, so it registers in your brain.

**4. Reward yourself for getting answers right**

Rewarding yourself provides an incentive for working hard and getting the answers correct, so the better you do, the more you are rewarded. Try small candies like Gummies or chocolate. The small amount of sugar could also help keep you focused.

**5. Keep distractions minimal**

Put your phone away, or on silent. Texts from friends and notifications can distract you from your work and lead you to stop studying. If you are working on a laptop, only keep tabs open that are relevant to your work.

SAT

By George Aziz

---

According to the book Yes You Can: "The SAT is the nation's most widely used admissions test among colleges and universities." It tests students' knowledge of subjects that are necessary for college success: reading, writing, and mathematics, which means it is a test that is testing you from when you first started school to your last year of high school.

And it is really hard to study for the SAT. However, there are a few things you can do to help you get ready for the SAT. The SAT is not like other tests; there are no study guides for you to look at, but there are websites to help you prepare for the SAT, such as Khan Academy and College board. The SAT is a timed test, so you will need to

giant teeth. Razor roared in pain and grabbed Roxas with his claws and threw him off, but Roxas ripped off a piece of the flesh on Razor's neck in the process. This weakened him extremely. Roxas then transformed himself back into a giant gorilla and threw another punch at Razor, sending him flying against a wall, knocking him out in the process. After this a purple beam surrounded Razor, turning him back into his human form, but he was still unconscious.

After the rest of the team were able to walk, they returned to the base with the still unconscious Razor. Three days passed and Razor was still unconscious, but he finally woke up after the fourth day of being in his comatose state. When he woke up he was greeted with Roxas standing above him with his keyblade to his neck. He sat there with a blank face staring back at Roxas.

**6. Take Breaks**

Your brain needs time to process information, so divide your studying into intervals. For the most efficient use of your time, use intervals of 15 mins. Just be sure not to stop studying until you are finished.

**7. Study with friends, but stay on task**

Studying with your friends can help make your studying more entertaining and fun, but make sure to stay on task. Have fun but not too much fun.

**8. Teach what you learned to someone else**

Teaching what you're studying can also help stimulate your brain and memorization. It doesn't have to be a person, it could be a pillow or stuffed animals.

**9. Get enough sleep**

Don't stay up all night studying. This may seem like a good option, but it is incredibly counterproductive. Plan out your studying times, so you

know how to manage your time while taking the test. An easy and efficient way to help you study for it is to take a SAT practice test you find online and time yourself to help get better at time management.

Below you there are a few websites to help you for your studying for the SAT. For Khan Academy, you can start taking practice tests to help you improve in your timing, your vocab, and your test taking strategies. For College Board, it is similar to Khan Academy because they are actually working together, so you will have the same experience you have in Khan Academy. And last but not least we have Quizlet, which helps you in your vocab. Quizlet takes words that are in the SAT and puts it into flashcards and tests you to improve your vocabulary.

GOOD LUCK!

"How do I know we can trust you?" Roxas replied.

"What do you mean?" Razor asked.

"I don't think he remembers what happened," Jamie said.

"What do you mean, what happened?" Razor asked.

They explained what happened during the heartless attack.

Razor sat there in his bed with a horrified look on his face.

"I . . ."

Roxas began to cry before he could finish what he wanted to say.

"Its ok, you were out of control, but don't worry I'm going to teach you how to control your new power," Roxas said.

"All we need to do is acquire a beast stone, or in your case it's called a dragon stone."

"What's a dragon stone?" Jamie asked.

"It's a powerful gem that will help Razor control his power to turn into a dragon and his elemental power," Roxas explained.

What do you mean elemental power?" Isaac asked.

"Razor has the power of water and shadows. You've only used your water power, but I've seen you harness your power of shadow before, when you were
