B) MANAGE YOUR DIRECTORY PROFILE

Note: For security purposes, you will NOT have access to the online church directory UNTIL the church office sends you an invite to join the directory. Once you have access, none of your personal info will be listed in the directory UNTIL you choose to share it. Set your directory **privacy preferences** to indicate *which* info to list (ie. phone, email, address, birthday). You may update these preferences at any time. You may also upload a **family photo** for your **household** profile here.
